The coronavirus responsible for the pandemic was a designer virus, a combination of the classic coronaviruses and HIV.

The germ is therefore designed to give us all an AIDS-like disease.

AIDS / HIV is a disease that does not cause any symptoms in itself, but causes a general suppression of the immune system.

What people then fall ill with and die from are the secondary diseases that spread within us because our immune system doesn't work.

The legacy of COVID, and potentiating the legacy of vaccination, is a global damage to the immune system that is now making it possible for people to get all the diseases they have had before, but in an exacerbated form.

This includes: Lyme disease, chronic fatigue, Epstein-Barr virus (causes lymphoma, breast cancer, chronic fatigue), Coxsackie virus (causes heart failure, chronic fatigue, brain fog), reactivation of streptococci in the lymphatic area in the throat, an inability of our detoxification enzymes to work properly.

COVID is designed to make it look like people got sick "naturally" (that the cancer comes "naturally" because it was already "waiting" anyway).

There is no disease symptom that is directly caused by COVID, there is no specific key symptom for COVID.

Infection with the germ is worldwide - except for a few small tribes in the Amazon that have not been exposed to it.

99.99% of the germ is in us humans. There

are 2 types of people:

Those who were acutely ill with COVID and had a strong acute immune response (some died from their own immune response, but most survived this infection) are less likely to have long-term damage, have curable damage (certain late damage in the lungs and blood vessels that can be healed).

It's particularly bad for other people who have had no immune response to this infection, who say about themselves: "I've never had COVID." And yet these people develop diseases such as cancer, autoimmune diseases, ulcerative colitis, Crohn's disease, myocarditis, chronic neck pain, chronic migraines - which they never had before or only very mildly and now massively. Because these people refuse COVID treatment and therefore cannot be helped. They carry a virus that is biologically active, reproduces and largely causes further damage to the immune system. These are the people who are often most affected in the long term. It's the women who are fertile but still can't have children, it's the people with chronic gastrointestinal problems that they didn't have before, people with sudden kidney failure, with chronic neck pain or massive hip pain. With the autonomic response test (ART, muscle test to determine whether the energetic parts of the autonomic nervous system are capable of regulation or blocked), it is determined in these people that these tissue areas are richly infested with coronaviruses, which have found their place in the system here and have submerged the immune system below this threshold of perceptibility and have spread so "cleverly and intelligently" that the immune system has not noticed. In the areas of the body where the virus "takes over" in terms of numbers and activity, the immune system "notices" it and it then looks like an orthopaedic disease, like shoulder pain or jaw pain or the

Eyes get worse (glaucoma, cataracts, macular degeneration) and then you blame it on age and don't think about corona.

Separate from this is the issue of spike proteins.

Not only for vaccinated people, but also for unvaccinated people, these are as in

The spike proteins produced in "human factories" are catastrophically bad, causing various types of damage at different sites.

Studies in vaccinated people show that there has been no reduction in this excessive formation of deadly spike proteins in the last 2 years since vaccination began.

This means: 1x vaccinated = permanent spike protein producer

Spike protein-producing organs are the liver, the genitals in men and women and the spleen.

An additional burden in vaccinated people is the graphene oxide or graphenoids, these self-organising carbon compounds and factories that are self-replicating. The graphene oxide seeks out further carbon atoms from the environment of the human body into which it has been injected and builds itself very large tissue networks, which clog the blood vessels and are later found during the autopsy of the dead.

Toxic phosphorus lipoids were used to produce the vaccine. These phosphorlipids are exclusively responsible for the severe myocarditis in vaccinated people. The supply of good phosphorlipoids is important for treatment (Mycophos in England; Biopure is a liquid that is taken by the teaspoon twice a day for acute illness).

We know from Pfizer that messenger RNA has been incorporated into the vaccine, sequences that change the personality and thinking of vaccinated people.

This complete denial of obvious facts and connections is built into this RNA sequence. We know that the behaviour of humans and animals can be controlled with messenger RNA sequences. Messenger RNA sequences were built into the Pfizer and Moderna vaccines, not in Astrazeneca and the other vaccines.

The enormous psychological and spiritual change in these vaccinated people can be observed.

The ability to pray or meditate is completely blocked in vaccinated people and with it their spiritual connection to their higher self (as Rudolf Steiner predicted).

In vaccinated people, a violation of the energetic immune system (defence/protection on the spiritual level) has occurred. In vaccinated people and sometimes also in people with severe Covid cases, cracks are recognisable in the aura to which entities/demons from the spiritual world (can) dock and these people are then psychologically completely confused and changed. This inoculation has created a convergence of these dark parts of the spiritual world and our physical world. More and more people are affected by this unhealed on the other level (deceased people who could not continue on their path towards healing).

Vaccination has completely distorted people's perception. They can no longer perceive the obvious.

This raises the question for us scientists as to what the evolutionary advantage of this event might be.

For people who have not been vaccinated: be careful, be careful, be careful.

If you have not been vaccinated and have no symptoms, you should check very honestly and thoroughly whether you really have no symptoms and whether there is really nothing that was not there before and is now slowly developing: back pain, forgetfulness, brain fog, eye problems, tinnitus, jaw joint problems, difficulty swallowing, stomach problems, loss of libido, erectile dysfunction.

Myocarditis also occurs in non-vaccinated people, but in a much reduced form.

Unvaccinated people are much easier to treat, but hidden diseases can often be found in the tissue. Within 2 years post-Covid, the incidence of cancer and chronic neurological diseases also increased in unvaccinated people, although not as extremely as in vaccinated people.

The intentions of the virus are, on the one hand, to make people infertile and, on the other, to control the human will so that we give up our own will.

The only way we can fight it is not with our own will, but by first treating and paralyzing the virus.

Then our own will will come through again.

The virus is like a radio station that is built into us and constantly sends out this signal:

"Everything is fine. Don't put up a fight. Look in the newspaper and see what's true."

Biotech and Pfizer are under the control of the US Department of Defence (DOD), which is under the control of the CIA, which is under the control of a few families who also own the press and all the media.

The vaccination itself is the chip that is implanted in people, which integrates into their DNA and changes them.

In Germany there is the world's leading laboratory Arminlabs for immunodiagnosics (immune panels, panel with 12 immune factors)

In acute Covid, the following increase: interleukin 6, coagulation factor D-dimers, ferritin.

With chronic Covid, there are many factors that can be slightly different for each person affected - the virus is specially designed so that there are no standardised parameters, no standardised diagnostic tool.

**Recommendation:  
Minimal treatment for 2 years**

*in chronic or subacute form:*

These viruses are excreted via the liver, the bile ducts and the intestines - not via the kidneys. It is therefore important that the detoxification pathway from the liver to the bile ducts to the intestines is cleared by **liver-bile cleansing** (according to Andreas Moritz), liver compresses with castor oil, coffee enemas (**intestinal cleansing**).

Support for the liver with **liver tincture from Biopure** with artichoke extract, broccoli sprout extract (removes plastic particles and non-metallic toxins and agrochemicals from the body), also with alpha-lipoic acid, glutathione  
Liver remedy from Biopure with dandelion tincture (dandelion has an enormous effect on the detoxification of spike proteins via the liver). Dandelion breaks down the spike proteins so that they can no longer dock to the cell.

Binding agent for these spike protein fragments so that they cannot be reabsorbed in the 4 metre long large intestine: **Chlorella energy** (special type of chlorella)

People with very severe cases of Covid always had a lack of bifidobacteria in the large intestine. **Bifidobacteria** cannot be taken orally, they must be given by enema. Open the capsules, dissolve in water and give as an enema.

The place where Covid continues to survive and reproduce is the lymphatic vessels in the neck. Gargle with propolis tincture.

There is a gargle mixture of cistus and propolis (**KI science "ZEROVIR"**), which I gargle with every evening.
